Sell. sibilities. ers are to be allowed to charge prices for an article varying according to the grade of the article and the cost of freight to destination. It would be absurd to insist on a single selling price for United States. Another concession is the striking out of the prohibition against exclusive sales arrangements, as such. Manufacturers are still to have the right to select their customers within the practice tends to create a monopoly it may be dealt with under the anti-monopoly provisions

Interlocking directorates are not to be forbidden except in the case of corporations having capital, surplus and undivided profits of more than \$1,000,000. That leaves room for harmless intercorporations when such acquisition does not hamper competition, and the foolish innovation of compelling operators of mines and oil wells to sell to any responsible person offering himself as a purchaser is stricken out.

All these changes are in the direction of unloading the crudities with which the House bills were so plentifully burdened. The knife was also laid to the labor exemption sections, and these were partially clarified, although it will still be disputed whether they do or do not give labor and agricultural organizations special class privileges of the Sherman law. The Senate should try to tion act a proviso forbidding the Department of "dope" across the Hudson River. Justice to use any of the money granted to it in by union laborers and farmers.

sents strikingly the desirability and necessity for women delegates-if they may be seated. The value of women's services in public office and on official commissions and boards has long been recognized. To admit them to the debates on the new constitution's provisions is merely extending Entered at the Postomes at New York as Second Class this recognition and obtaining a truly representative body for the framing of the state's organic law. The Tribune has long advocated it.

Some suffrage leaders think it would be a bad thing to have women delegates, because the convention's proceedings would be dominated by insiders, cliques, political combinations and the like, and women delegates could only sit and look on The supplementary anti-trust bills have now without taking part in this "inside politics." THE RICE-TAYLOR GOLF GAME.

Chicago Ill July 14.

Friend Frank :- Well Frank this B. L. T. and Grand Land Rice told me where they was going and what time today so I went with them and Bill Hanna went a long to and we took the 9:30 on the Rock Island and rode right along-side the Nickel Plate for a ways untill finally we left the Nickel Plate and went a long by ourselves untill should you ought to look at the hole or look at the ball while you was puting and they says they would leave it to me and let me put 9 holes each there scores was better when they looked at the hole so what is the answer I don't know. Bill Hanna left us and went to the ball park early because he was a scared he would miss some of the practice but Rice and B. L. T. wanted me to play golf with them though I did not never have no golf bat in my hands. I was not so rotten at that Frank and I guess I must of made a bigger score than the both of them put to gether and besides I drived the ball in to a pond which was more than either of them done and once I lifted a ball more than 5 ft off of the ground. But they no more so I quit and give them the laugh. I forgot to tell you that a moving picture man took some pictures of B. L. T. and Rice puting and I chance to see the fillums in a big city like NY. but may be you could see them if you went to Angelsea or somewheres but why should you. I wont tell you no more because you made such a awful holler about me sticking you for fifty cents on that there telegram.
